## KEY ADVANTAGES OF KVSON WOOD ADHESIVE

High Coverage

Waterproof and  
Resistant to Most  
Chemical

Heat Resistant

No Mixture  
of two  
Component

Economical &  
Long Lasting

High Solids

Non Corrosive and  
Non Toxic

Great Strength,  
Toughness and  
Resistance

Better Penetration  
in Wood

High Initial  
Tack

Fast Setting  
Time

### BONDING APPLICATION

- Furniture
- Handicraft
- Packaging
- Stationery
- Other Industrial

### FEATURES

- Excellent Coverage
- Long Storage Life
- Strong Bonding

## METHOD OF KVSON WOOD ADHESIVE

Clean the surface thoroughly with cloth to let it be free of dust, wax and stickers.

Stir the glue just before the application, spread the glue uniformly with brush, roller and spreader on both the

Once the glue is spread on the surfaces, bring them in contact and make proper alignment.

Press the surface by wet squeezed cloth to remove air bubbles if any.

Apply masking tape on the edge with under pressure. Bond will be created within 6-8 hrs. Full strength achieves in 24hrs.

**SUPER  
DIAMOND**

**PACKING  
1KG., 50KG.**

**SUPER  
PLATINUM**
