### KVSON-ASA ECO-FRIENDLY MATERIAL

#### Antifinger, anti scratch, soft touch and more environmental friendly

- Using excimer technology, the surface has been improved repair performance and is super scratch-resistant compared to similar **KVSON-ASA** products on the market. Extremely delicate.
- **KVSON-ASA** material is composed of multi-layer structure and has stable performance
- Comply with EU REACH regulations and food-grade environmental protection requirements,
- It does not contain plasticizers, formaldehyde, heavy metals and other harmful substances, and is truly non-toxic and odourless.
- Weather resistance gray card level 4 or above, specific colors can be weather-resistant for up to 5 years without discoloration;
- The hardness is good up to 1H and has good scratch resistance;
- The stain resistance level can reach level 5 with no obvious change;
- The matte surface feels as smooth as skin, and minor scratches can be repaired with heat.
- Compared with PVC, **KVSON-ASA** is more environmentally friendly and has stronger surface anti-fouling and scratch resistance.

It is a very ideal decorative material for door and wall integrated cabinet door panels.
